

27<sup>th</sup> March 2026

Dear Parents and Carers,

Next term, Year 3 will be studying the conservation of bees as part of our Geography lessons. As part of this topic, we are very excited to begin creating a small bee-friendly garden within the school grounds.

To help us get started, we would greatly appreciate any contributions you may be able to provide. We are looking for the following items:

- Compost
- Wildflower seeds
- Bee-friendly flower seeds or seedlings (such as lavender, marigolds, sunflowers, or cornflowers)
- Any unused plant pots

**There is no expectation to buy anything new**—any spare or leftover items from home would be very helpful. Every little contribution will make a big difference to our project.

If you are able to help, please send items in with your child.

Thank you very much for your support in helping us create a space that will benefit both our children and the local environment.

Kind regards,

Mrs Miller  
Year 3 Teacher
