

Dear Parent/Carer,

Multiplication Check Preparation

Later this year your child will take part in a short multiplication check at school. The children are already preparing and working hard for this in school but some extra practise at home would benefit them.

Below are some QR codes that will direct your child to a website to work on their multiplication facts. The QR code can be scanned by any smart device (tablet, phone).

Website Description	QR Code (scan to access)
<p>Times Table Children have 6 seconds to answer a multiplication question. This mimics the actual test and will help your child become more familiar with the layout.</p> <p>www.timestables.co.uk/multiplication-tables-check/</p>	
<p>Hit the Button An engaging game with the aim of improving multiplication fact fluency.</p> <p>https://www.topmarks.co.uk/maths-games/hit-the-button</p>	
<p>Car Rush Multiplication A fast paced multiplication game. Children progress through levels unlocking new tracks as they answer more multiplication questions.</p> <p>https://www.multiplication.com/games/play/car-rush-multiplication</p>	
<p>Snowball Smash Answer multiplication questions before taking part in a snow ball fight. You can focus on specific times tables or select year group objectives.</p> <p>www.mathsframe.co.uk/en/resources/resource/563/Snowball-Smash</p>	

Enjoy Practising!
